

FREE COURSE DESIGN

CAROLINA DISTANCE LEARNING®

CAMPUS QUALITY LABS FOR ONLINE STUDENTS

SEND US YOUR SYLLABUS

A Distance Learning Specialist will contact you with lab matches for your course.

Our Distance Learning Specialists provide free course design, matching our investigations with your syllabus, to help you create a custom kit that integrates seamlessly with your curriculum.

How it works

Send us your syllabus. We'll match labs to your learning outcomes.

Then we'll schedule a call to talk about the recommendations and make changes based on your feedback, giving you complete flexibility. You make the final decision as to what your kit includes.

Kits are available for 8 science disciplines

We offer more than 200 hands-on investigations to align with your course requirements.

Environmental Science

Biology

Microbiology

Geology

Allied Health

Physics

Chemistry

Anatomy and Physiology

Choose optional OpenStax pairing

OpenStax provides openly licensed textbooks that we match with labs so you can meet learning outcomes and further enhance your online course.
